Notes:

- The above average inpatient sending rate per bed-day is determined based on the Company's bills for services rendered to patients, which are in accordance with the differences in the dialysis rates and the Company's inpatient admission for some medical cases. It is not a fee.
- The considered increases in outpatient visits and significant increase in cases covered by the period's year-end financial results are: i) a decrease of lower-level online dialysis rates through the Company's inpatient hospitals; and ii) an increase in the ring of dialysis rate in the outpatient hospitals.

The above operating and indicators are based on the Company's records and are not necessarily identical to the Company's auditors. The operating and indicators may differ from those disclosed in the annual or semi-annual reports. The operating and indicators disclosed in the annual or semi-annual reports shall prevail if there is a discrepancy.

Shareholders and potential investors of the Company are reminded to rationally deal with any information not officially released by the Company, and shareholders and potential investors of the Company should exercise caution when dealing in the shares of the Company.
